EFFICIENCY *UNLEASHED*

BOOST BODY SHOP EFFICIENCY
WITH AIR-DRYING PF345 RAPID SURFACER

OCTORAL

In the fast-paced world of car refinishing, two things are crucial: increased efficiency and cost effectiveness. As energy costs continue to rise, body shops are seeking ways to reduce reliance on spray booth usage. The priming process provides an opportunity to reduce this energy drain.

The new, innovative Octoral PF345 Rapid Surfacers offers an easy solution to these concerns. It eliminates the need for spray booth baking, helping to enhance process times and transform your overall workflow.

BENEFITS TO YOUR BODY SHOP:

Air-drying power
Cut drying time to just 15-20 minutes

Boost productivity
Eliminate bake cycles, free up spray booth capacity

Time mastery
Rapid drying times mean more jobs are completed in less time

Built-in guide coat
Removes the need for an additional guide coat

RAPID SURFACER GREY

Per box 4

RAPID SURFACER BLACK
Product code PF345B
Article no. 402116.G01
Contents Gallon/3.78 L
Per box 4

Speed and precision

Getting rid of the bake cycle isn't just about saving on energy costs – it's about improving your overall productivity. With air-drying, the need for a 30-minute bake cycle* becomes obsolete, freeing up the spray booth capacity. For example, if your body shop completes four jobs a day with a 30-minute bake cycle, using the PF345 Rapid Surfacer instead allows your shop to tackle more vehicles within the same timeframe.

* 30-minute bake cycle used as an example for a universal surfacer.

Boost efficiency with air-drying power

The PF345 Rapid Surfacer removes the need for energy-intensive baking. With air-drying reduced to just 15-20 minutes, body shops will see a drop in energy expenses. It also helps in creating a more environmentally conscious and efficient operation.

Elevate throughput, profits and colour matching

The faster the drying, the more jobs you can complete, and the more profits you can generate. Our surfacer reduces process times, boosts throughput, and features three grey shades for precise colour matching.

Dedicated thinner and hardener

The PF345 Rapid Surfacer comes with dedicated thinner and hardener. For technical information refer to the product Technical Data Sheet.

RAPID SURFACER THINNER

Product code TH345
 Article no. 303301003
 Contents 5 L
 Per box 3

RAPID SURFACER HARDENER
