If you would like to receive more copies of our next Newsletter or would like to receive a digital copy instead, please send us an email.

Issue: April 2007
 Next newsletter: June 2007

Additions/updates to our colour documentation

In May the following additions/updates will be released:

- Colour Box update
- COINS CD-Rom
- Connex
- Microfiches Octocryl, Octobase and Octocoat (last time)

In May, all updates that you have requested will be sent together with your current orders. If you have no outstanding orders, the updates will be sent separately. If you received anything by the end of June, please contact us.

Microfiches

In May 2007 the final update of the microfiches will be issued (Octocryl, Octobase, Octocoat and vehicle colours). We would advise you not to use these microfiches any more after 1st of January 2008 and to order our COINS CD before the end of the year.

Addition Colour Box

A year ago we've introduced our new Colour Box to our clients. The response was very good; nevertheless we have received some response concerning the colour accuracy of some chips. It's obvious that we aim at providing the best possible appliances. Therefore we have decided to replace some chips by new, better chips. Consequently the next update will contain more colour chips than you're used to from us.

We ask you to incorporate the new chips into your Colour box a.s.a.p.

COINS + Octoral Website

All barcodes for paint products are from today on available on our website.

New technical and safety sheets are issued and/or changed on a regular basis. The 5.0 version of COINS now includes technical information sheets in both Croatian and Romanian. It is therefore very important to ensure that you are working with the latest COINS update. All new products and the most recent amendments can be found on our website: www.octoral.com

LU Regular Mixing Colour

Due to the substantial risen, number of formulas we have decided to treat mixing colours Xirallic Blue and Gold no longer as LU (Limited Use) tinters but as regular mixing colours. This will lead to the following changes in product and part codes:

	Productcode	will switch to	productcode	partcode
Octobase	OD528	MM572	510572001	
	OD527	MM573	510573001	
Octobase Eco	L28	W28	511972000	
	L27	W27	522973000	

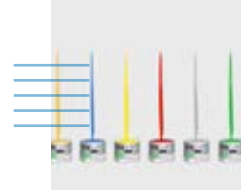

The survey of used Xirallic colours in formulas is no longer attached, but only available on the website under LU tinters.

NEWS THAT GRABS YOU

Waterbase Colours

The 0.5 L Ecobase Colours 900, 919, 929 and 913VC will switch to 1L.

This will also lead to changes in product and part codes.

SHORT NEWS

Wedding 6th of January 2007 in Australia

Michael Barnes and Jade Dearie were married on Saturday 6th January 2007.

The groom is Financial Controller for De Beer Australasia Pty Limited.
