

## W157 TRANSLUCENT MAROON TONER

Octoral is always looking ahead to help you meet every emerging challenge in refinishing. As vehicle manufacturers develop complex new finishes, we respond rapidly with innovative solutions that ensure you have the system to precisely match and deliver great finishes, first time.

### CRITICAL COLOUR MATCH

We believe that colour matching should be simple and exceptionally accurate. This philosophy gives us a unique understanding of the subtle differences that visionary professionals appreciate. Our Translucent Maroon toner was designed to match a variety of challenging finishes that are particularly translucent and high in chroma. As forward-thinkers, we designed a new toner that can match complex candy and deep red finishes that are now being used by vehicle manufacturers.

## CHALLENGING OEM FINISHES

The Translucent Maroon toner can be used with any other red toner, including metallics, to achieve significant depth of colour. It was formulated to address the following OEM finishes:

- Mazda 46V Soul Red Crystal
- Toyota 3T5 Infrared Pearl
- Toyota 3T3 Red Pearl
- Honda R556P Iconic Red Pearl
- Mitsubishi P62 Red Metallic

The Translucent Maroon can be used on other vehicle manufacturer cars that are candy red in colour.

### HOW TO ORDER

Octoral Translucent Maroon is available now. The information you will need to order this product is summarised below.

#### OCTORAL TRANSLUCENT MAROON

Product code	W157
Article number	519843001
Contents	1 L
Per box	3

### FIND OUT MORE

Innovative toner to match challenging OEM finishes with the Octobase Eco Plus System.

To find out how we can help you make your local launch even more successful, please contact your local Octoral Sales Representative.

## PROCESS INNOVATION

### UNLOCK STRIKING NATURAL CLARITY AND EXCEPTIONAL COLOUR ACCURACY

The Translucent Maroon toner is easy to use, with a straightforward four stage process to achieve a premium finish, without the need to use an additional tinted clear. Simply apply the translucent mid tone after the base coat has dried to guarantee incredible colour depth, with only a single clear coat needed.

### 4 STRAIGHTFORWARD STAGES

#### Octobase Eco Plus

1. Undercoat
2. Base coat
3. Translucent mid coat
4. Clear

### PROVEN PARTNERSHIPS

We take great pride in building our relationships with customers into partnerships that work towards a shared vision. In fact, we often listen to and work with our customers to develop new products, like our Translucent Maroon. We strive to bring technology, innovation, and progress to our customers, assisting them to maximise efficiency while minimising environmental impact. We support ambitious businesses by bringing them our world-leading expertise, global strength, and comprehensive customer support.

Businesses around the world trust Octoral to help shape their future success – join them today.

### TRANSLUCENT MAROON TONER APPLICATION

 Ensure the repair area is prepared according to the Best Practice.

**1** Apply the required undercoat, tack-coat and full coat until covered.

**2** Apply the undercoat special red metallic. Apply a 75% coat and a full coat with flash-off in between, until uniform.

**3** Apply the Translucent mid coat. 2-3 layers depending on the required colour preferably in a crossing motion.

**4** Apply a recommended clear coat suitable for the Octobase Eco Plus System.

Octoral is a Valspar Automotive brand.  
Valspar Automotive is a subsidiary of Sherwin-Williams,  
one of the world's leading manufacturers of coatings.  
Valspar Automotive produces and distributes the following
