## ANY OEM OR CUSTOM MATT FINISH

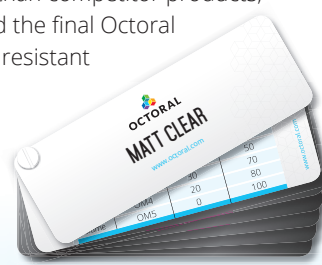

Offering top-quality custom finishes is good for business. Refinishing premium brand vehicles commands premium rates.

Until now, reproducing OEM or custom matt finishes accurately has been challenging and time-consuming. Not anymore.

Reproduce OEM and custom finishes quickly, consistently and with outstanding results with the new Octoral Matt Clear. To achieve a full range of matt levels needed, the new Octoral Matt Clear System mixes two clear coats (low gloss and semi gloss), plus a dedicated matt hardener and thinner.

A Matt Clear Swatch aids accurate matching. Flash-off times are 10-15% faster<sup>1</sup> than competitor products, accelerating workflow, and the final Octoral Matt Clear finish is just as resistant and durable as the factory-applied original.

Octoral Matt Clear Swatch

### SPEED. CONSISTENCY. QUALITY.

**FAST.** 10-15% faster<sup>1</sup> flash-off than competitors, to accelerate workflow.

**CONSISTENT.** Achieve high-quality OEM-standard results every time.

**TOP QUALITY.** Polyurethane two clear coat mixing system ensures superior matching and finish compared to using one clear coat with a matting agent/additive.

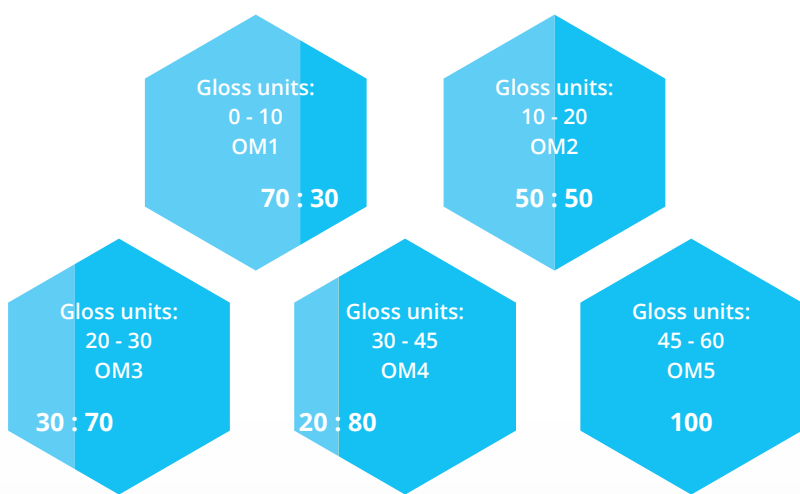

**VERSATILE.** Match matt levels precisely by mixing low gloss and semi gloss clear coats.

**EASY TO USE.** Uniform, even finish with cross layer application.

**PROFITABLE.** Increase profitable OEM repair and custom finish business.

### OCTORAL MATT CLEAR CLEANING AND CARE

Important information and advice for car owners on cleaning and care for Octoral Matt Clear finishes is available at [www.octoral.com/mattclear](http://www.octoral.com/mattclear)

### EASY APPLICATION

- Easy to spray, with a fast flash-off
- Cross layer application
- Standard gun set up
- 2.5 coats (45-60 µm)
- Recommended application temperature is 15-30°C

Note: to check gloss level and colour match, spray a test panel first.

### DISCOVER WHICH CLEAR COAT SUITS YOU BEST

Matt Clear joins the Octoral clear coat range to create any level of matt or gloss finish. Use with existing Octoral coatings for the perfect result, time after time. Please contact your local Octoral representative for more details.

<sup>1</sup> Figures are based on publicly available competitor information.  
<sup>2</sup> To avoid settling, the Octoral Matt Clear Coats should be placed on a mixing machine.
