NEW!

BRIGHT RED COLOURS WITH A 'CANDY' EFFECT IN AN INSTANT

The launch of a new mixing colour means that problem bright red colours with a 'candy' effect can now be repaired in three easy steps. The Octoral Octobase Eco Plus System has been expanded with mixing colour W816 Metallic Bright Red and the Octoral Octobase System with mixing colour B816 Metallic Bright Red.

TOP RESULT WITH EASY 3-LAYER SYSTEM

1. Metallic undercoat, colour-matched with the new mixing colour so that the undercoat is identical to the desired final colour.
2. Tinted transparent basecoat for easy spraying.
Result: a perfectly matching colour.
3. Clear coating for a bright end result with lasting protection.
